

Overview

Below are the List of Tables and a sample table from the *North American Graphic Paper Annual Historical Data*.

An invaluable reference tool, the *Annual Historical Data* contains over 2,200 series of historical data researched and developed by RISI. The sources include government, association and RISI estimates. The data are cross-checked, revised and up-to-date, and are presented in units of measurement that are comparable across grades and regions.

Included are 17 years of annual historical data for newsprint, printing and writing papers and recovered paper and pulpwood. The *Annual Historical Data* contains 64 tables, broken down into major product groups. Concepts include end markets, production, consumption, end use, imports, exports, shipments, capacity, prices and costs.

For additional information, please e-mail us at sales@risi.com.
