

### Overview

Below are the List of Tables and a sample table from the *World Recovered Paper Annual Historical Data*.

An invaluable reference tool, the Annual Historical Data contains over 1,700 series of historical data researched and developed by RISI. The sources include government, association and RISI estimates. The data are cross-checked, revised and up-to-date, and are presented in units of measurement that are comparable across grades and regions.

Included are 17 years of annual historical data for the demand, supply and price concepts for recovered paper within the major paper and paperboard grades -- newsprint, printing and writing papers, tissue papers and paperboard.

For additional information, please e-mail us at [info@risi.com](mailto:info@risi.com).
