## Excerpt - Introduction

This report includes current, planned and assumed capacity for the Asian graphic paper industry. Capacities for each country are listed by mill and by grade. The report covers the five major printing and writing paper grades: uncoated woodcontaining, uncoated woodfree, coated woodcontaining, coated woodfree and newsprint.

The *Asian Graphic Paper Capacity Report* is based on published information as well as our own estimates and forecasts. This information was used to construct capacities by grade for the major mills in Asia.

This report is divided into three sections. The first shows top producers of each grade with capacity and market share. The second section presents capacity organized by country. The third section details graphic paper capacity by grade.
